

SafeSport Compliance Requirements

Each member is required to have the following on their website:

1. **Prohibited Conduct Policy** – Ensure this policy includes your association's name.
2. **One-on-One Policy** – Include your association's name in the policy.
3. **Reporting & Mandatory Reporting Section** – Clearly outline how to report concerns and mandatory reporting guidelines. [Learn more here](#).

SafeSport Training Requirements:

1. **Board Members and Employees** – All board members and employees must have a current SafeSport training certificate and completed screening. Ensure you track and maintain these records in case of an audit or if needed.
2. **For Teams with U18 Players** – Any player aged 18 or older and all adults with authority over U18 players must complete SafeSport training and background screening. Ensure that your leagues have the certifications and screenings available if needed or audited.

SafeSport Training:

US Soccer now recommends that all members use the Learning Center. Users can take the SafeSport training directly on the learning center here: <https://learning.ussoccer.com/safe-soccer/courses/available/20000001/details/20000001>.

Or can also navigate to this in Phase 1 of the Safe Soccer Clearance page here: <https://learning.ussoccer.com/safe-soccer>

Each member association is responsible for the following screening requirements:

All individuals requiring SafeSport training must be checked against the following databases:

1. **National Sex Offender Registry:** Check here: <https://www.nsopw.gov>
2. **U.S. Soccer Risk Management List:** U.S. Soccer has adjusted the security requirements for the risk management list going forward. As a result, we are changing the process for accessing the risk management list. Rather than using a shared link, individuals who need access to the list will be added as individual contributors via their email address. Once added, they will be prompted to create a

Box account through which they can view the list. Please follow the below process to obtain access:

- Reach out to Sophia (smiller@ussoccer.org) and Bria (bduvall@ussoccer.org) with the names and email addresses of any individual(s) from your organization who need access to the list.
- Once added, you will receive an email from Box inviting you to collaborate on the document. Click on the link in this email.
- Sign into your Box account to view the risk management list. If you do not already have a Box account, you will be prompted to create a free one using the email address you provided.

As a reminder, the risk management list is confidential and should not be shared with anyone outside your organization and should only be utilized for risk management activities as needed.

Thank you and let us know if you have any questions!
